APN - Europe (Airport Performance Network - Europe)

The group was established in 2009 with the objective to standardize the reporting of airport punctuality data, to exchange best practices concerning operational performance and predictability at European airports. Under the European Commission Implementing Regulation 390/2013 these airports must submit their operational data, on a monthly basis, to the Performance Review Unit (PRU) and CODA of EUROCONTROL. By publishing punctuality data from this validated source, APN - Europe assures the accuracy of the performance data in the public domain and are not dependent on third party interpretation.
