

ACI-APN - Europe Punctuality Report: February 2025

In February 2025 airport performance in terms of punctuality improved when compared to February 2024 with arrival punctuality increasing to 84% and departure punctuality to 80%.

Amsterdam AMS faced notable delays due to low visibility and ongoing daily aerodrome capacity regulations. Lisbon LIS continued to suffer from weather-related delays, such as low visibility and cumulonimbus clouds (CBs). In contrast, London LGW experienced fewer disruptions, benefiting from fewer days of strong winds and low visibility compared to the previous year. London LHR recorded better punctuality as weather disruptions eased, Oslo OSL experienced fewer weather-related delays compared to last year, when fog and snow were significant factors.

Arrival Punctuality (A15): February 2025

		APN-E Average	
1: Over 25 Mil pax	AMS	Amsterdam	83.9%
	ARN	Stockholm	81.5%
	ATH	Athens	82.4%
	BCN	Barcelona	83.5%
	BRU	Brussels	86.9%
	CDG	Paris	83.4%
	CPH	Copenhagen	81.7%
	DUB	Dublin	83.4%
	DUS	Düsseldorf	81.7%
	FCO	Rome	86.1%
	FRA	Frankfurt	84.6%

Airports ranked alphabetically, and by numbers of commercial flights operated on arrival and departure (ACI Europe Airport Grouping - based on 2019 data).

Only passenger flights are taken into consideration, excluding General Aviation and Business Aviation. Data includes flights of IATA Service Type Codes: B (Additional Flights - Passenger - Shuttle Mode), C (Charter - Passenger - Passenger Only), G (Additional Flights - Passenger - Normal Service), J (Scheduled - Passenger - Normal Service), L (Charter - Passenger/Cargo/Mail - Passenger and Cargo and/or Mail), O (Charter - Special Handling - Charter requiring special handling), Q (Scheduled - Passenger/Cargo - Passenger/Cargo in Cabin), R (Additional Flights Passenger/Cargo - Passenger/Cargo in Cabin), S (Scheduled - Passenger - Shuttle Mode).

15' Punctuality (Arrival A15/Departure D15): It is the percentage of punctual flights on arrival/on departure (15 minutes) in relation to the total number of operated flights on arrival/on departure. With regard to the 15 minutes punctuality, all flights are considered to be punctual when they are delayed up to 15:59 mins.

Average Arrival/Departure delay per flight: the total delay minutes of flights delayed one minute or more are divided by the total amount of operated flights on arrival or on departure.

The group was established in 2009 with the objective to standardise the reporting of airport punctuality data, to exchange best practices concerning operational performance and predictability at European airports. Under the European Commission Implementing Regulation (EU) 2019/317 these airports must submit their operational data, on a monthly basis, to the Performance Review Unit (PRU) and CODA of EUROCONTROL. By publishing punctuality data from this validated source, APN – Europe assures the accuracy of the performance data in the public domain and are not dependent on third party interpretation.
