

# ACI-APN - Europe Punctuality Report: March 2026

For Immediate Release 8 May 2026

Performance in terms of punctuality at the 30+ airports part of ACI EUROPE's Airport Performance Network remained stable when compared March 2025, with 84% of flights arriving and 81% of flights departing on time.

Seasonal weather at airports influenced performance during the month, highs in delay were observed at Amsterdam AMS on 09 March due to LVP, the airport also suffered from weather (high winds and rain) towards the end of the month. Barcelona BCN was also affected by weather with high delays for CB/TS recorded on 06 March. London airports LHR, LGW and STN saw delays due to LVP at the start of the month. Lisbon LIS saw arrival punctuality improve as fewer weather days impacted the airport. Madrid MAD also saw an improvement as the airport saw less weather-related delay. Frankfurt FRA experienced delays due to airport facilities as well as reactionary (knock-on) delays.

Arrival and Departure Punctuality (A15/D15) for all Airports

Arrival Punctuality (A15): March 2026

Departure Punctuality (D15): March 2026

Category	APN-E Average	Value	Category	APN-E Average	Value

Airports ranked alphabetically, and by numbers of commercial flights operated on arrival and departure (ACI Europe Airport Grouping - based on 2019 data).

Only passenger flights are taken into consideration, excluding General Aviation and Business Aviation. Data includes flights of IATA Service Type Codes: B (Additional Flights - Passenger - Shuttle Mode), C (Charter - Passenger - Passenger Only), G (Additional Flights - Passenger - Normal Service), J (Scheduled - Passenger - Normal Service), L (Charter - Passenger/Cargo/Mail - Passenger and Cargo and/or Mail), O (Charter - Special Handling - Charter requiring special handling), Q (Scheduled - Passenger/Cargo - Passenger/Cargo in Cabin), R (Additional Flights Passenger/Cargo - Passenger/Cargo in Cabin), S (Scheduled - Passenger - Shuttle Mode).

15' Punctuality (Arrival A15/Departure D15): It is the percentage of punctual flights on arrival/on departure (15 minutes) in relation to the total number of operated flights on arrival/on departure. With regard to the 15 minutes punctuality, all flights are considered to be punctual when they are delayed up to 15:59 min (16 min).

Average Arrival/Departure delay per flight: the total delay minutes of flights delayed one minute or more are divided by the total amount of operated flights on arrival or on departure.

The group was established in 2009 with the objective to standardise the reporting of airport punctuality data, to exchange best practices concerning operational performance and predictability at European airports. Under the European Commission Implementing Regulation (EU) 2019/317 these airports must submit their operational data, on a monthly basis, to the Performance Review Unit (PRU) and CODA of EUROCONTROL. By publishing punctuality data from this validated source, APN - Europe assures the accuracy of the performance data in the public domain and are not dependent on third party interpretation.
