

FOR IMMEDIATE RELEASE

Net Zero a non-negotiable for airports

Prague, 23 June 2026: European airports today marked significant progress in their climate efforts, with 328 airports in 38 countries now committed to achieving Net Zero emissions under their direct control. Among them, 36 airports have already achieved this milestone.

As the European airport industry gathers in Prague for the 36th ACI EUROPE Annual Congress & General Assembly, the latest update of the *European Airport Industry Net Zero Resolution* highlights growth in both participation and ambition across the airport sector.

The latest update reveals that:

- **328 airports** across 38 countries have now committed to reach Net Zero by 2050 or earlier. These airports account for **83% of European passenger traffic**¹.
- **14 new airports** have joined this collective commitment compared to last year, with new signatories including: Alghero, Florence, Olbia Costa Smeralda, Pisa, Tirana, Avignon-Provence, Caen-Carpique, Deauville, Rouen, Atatürk, Dalaman, Rize-Artvin, Limak-Kosovo and Bacău airports.
- **36 airports have already achieved Net Zero** for emissions under their direct control (scopes 1 & 2) – more than double the number reported last year.

Originally launched in 2019, the ACI EUROPE Net Zero Resolution² commits airports to achieving net zero carbon for emissions under their direct control. These commitments need to be underpinned by clear and publicly available roadmaps detailing measurable goalposts towards delivering on that objective. To date, **109 decarbonisation roadmaps** have been submitted to the publicly available repository, including **19 new and updated roadmaps covering 48 airports**³.

The Resolution remains one of the most ambitious collective climate commitments in the transport industry, and continues to drive concrete climate action across

Europe's airport network. Crucially, **106 airports have set a target of achieving Net Zero by 2030**, anticipating global climate targets by two decades.

Olivier Jankovec, Director General of ACI EUROPE, said: "At a time when climate action is facing increasing political, economic and social pressures, European airports continue to demonstrate that decarbonisation remains a strategic priority. The steady growth in participation in the Net Zero Resolution and the increasing number of airports achieving Net Zero show that our commitment is steadfast. For European airports, pursuing Net Zero emissions is non-negotiable as this is about our license to operate and grow."

Notes to editors

List of airports that have achieved Net Zero in Europe

Airport Operator	Airport	Country
Aéroports de la Côte d'Azur	Nice Côte d'Azur Airport	France
Athens International Airport S.A.	Athens International Airport	Greece
Eindhoven Airport N.V.	Eindhoven Airport	Netherlands
Finavia Corporation	Helsinki Airport	Finland
Finavia Corporation	Ivalo Airport	Finland
Finavia Corporation	Kittilä Airport	Finland
Finavia Corporation	Kuusamo Airport	Finland
Finavia Corporation	Rovaniemi Airport	Finland
Finavia Corporation	Joensuu Airport	Finland
Finavia Corporation	Savonlinna Airport	Finland
Finavia Corporation	Kajaani Airport	Finland
Finavia Corporation	Kuopio Airport	Finland
Finavia Corporation	Mariehamn Airport	Finland
Finavia Corporation	Oulu Airport	Finland
Finavia Corporation	Pori Airport	Finland
Finavia Corporation	Tampere-Pirkkala Airport	Finland
Finavia Corporation	Jyväskylä Airport	Finland
Finavia Corporation	Turku Airport	Finland
Finavia Corporation	Kemi-Tornio Airport	Finland
Finavia Corporation	Vaasa Airport	Finland
Finavia Corporation	Utti Airport	Finland
GESAC S.p.A.	Naples International Airport	Italy

Royal Schiphol Group	Rotterdam The Hague Airport	Netherlands
Royal Schiphol Group	Amsterdam Airport Schiphol	Netherlands
Swedavia	Åre Östersund Airport	Sweden
Swedavia	Göteborg Landvetter Airport	Sweden
Swedavia	Kiruna Airport	Sweden
Swedavia	Malmö Airport	Sweden
Swedavia	Ronneby Airport	Sweden
Swedavia	Stockholm-Arlanda Airport	Sweden
Swedavia	Visby Airport	Sweden
VINCI Airports	Toulon Hyères Airport	France
VINCI Airports	Lyon-Saint Exupéry Airport	France
VINCI Airports - ANA Aeroportos de Portugal S.A.	Beja Airport	Portugal
VINCI Airports - ANA Aeroportos de Portugal S.A.	Madeira Airport	Portugal
VINCI Airports - ANA Aeroportos de Portugal S.A.	Ponta Delgada Airport	Portugal

List of new airports joining the ACI EUROPE Net Zero Resolution

Airport Operator	Airport	Country
Toscana Aeroporti S.p.A.	Pisa Airport	Italy
Toscana Aeroporti S.p.A.	Florence Airport	Italy

ACI EUROPE is the European region of Airports Council International (ACI), the only worldwide professional association of airport operators. ACI EUROPE represents over 600 airports in 55 countries. Our members facilitate over 95% of commercial air traffic in Europe. Airports and air connectivity support 14 million jobs, generating €851 billion in European economic activity (5% of GDP). In response to the Climate Emergency, in June 2019 our members committed to achieving Net Zero carbon emissions for operations under their control by 2050, without offsetting.
