

ACI-APN - Europe Punctuality Report: August 2026

For Immediate Release 9 Oct 2026

In August 2026, performance in terms of punctuality at the 30+ airports part of ACI EUROPE’s Airport Performance Network slightly deteriorated when compared August 2025, with 71% of flights arriving and 64% of flights departing on time.

Operational performance during August 2026 was largely driven by weather mainly during the second half of the month generating substantial disruption during the last week of the month. On 28 August, widespread convective activity caused the highest peaks of delay of 2026 so far.

Zurich ZRH airport was particularly impacted on the 28 August by temporary zero-rate regulations causing diversions. Athens ATH improved slightly despite ongoing ATC and aerodrome capacity constraints. Amsterdam AMS saw high delays on 31 August due to CB activity. Barcelona BCN suffered from delays due to weather (mainly CB & heavy rain) the tower also experienced a power failure on 12 August. Palma PMI was impacted by weather throughout the month, with 28 August seeing high delays due to CBs and wind shear.

Arrival and Departure Punctuality (A15/D15) for all Airports

Arrival Punctuality (A15): August 2026

		APN-E Average	70.7%
1: Over 25 Mil pax	AMS	Amsterdam	75.3%
	ARN	Stockholm	83.4%
	ATH	Athens	59.8%
	BCN	Barcelona	69.5%
	BRU	Brussels	72.2%
	CDG	Paris	72.8%
	CPH	Copenhagen	81.3%
	DUB	Dublin	67.4%
	DUS	Düsseldorf	68.1%
	FCO	Rome	68.3%
	FRA	Frankfurt	77.2%
	LGW	London	59.6%
	LHR	London	76.4%
	LIS	Lisbon	65.9%

Airports ranked alphabetically, and by numbers of commercial flights operated on arrival and departure (ACI Europe Airport Grouping - based on 2019 data).

Only passenger flights are taken into consideration, excluding General Aviation and Business Aviation. Data includes flights of IATA Service Type Codes: B (Additional Flights - Passenger - Shuttle Mode), C (Charter - Passenger - Passenger Only), G (Additional Flights - Passenger - Normal Service), J (Scheduled - Passenger - Normal Service), L (Charter - Passenger/Cargo/Mail - Passenger and Cargo and/or Mail), O (Charter - Special Handling - Charter requiring special handling), Q (Scheduled - Passenger/Cargo - Passenger/Cargo in Cabin), R (Additional Flights Passenger/Cargo - Passenger/Cargo in Cabin), S (Scheduled - Passenger - Shuttle Mode).

15' Punctuality (Arrival A15/Departure D15): It is the percentage of punctual flights on arrival/on departure (15 minutes) in relation to the total number of operated flights on arrival/on departure. With regard to the 15 minutes punctuality, all flights are considered to be punctual when they are delayed up to 15:59 min (16 min).

Average Arrival/Departure delay per flight: the total delay minutes of flights delayed one minute or more are divided by the total amount of operated flights on arrival or on departure.

The group was established in 2009 with the objective to standardise the reporting of airport punctuality data, to exchange best practices concerning operational performance and predictability at European airports. Under the European Commission Implementing Regulation (EU) 2019/317 these airports must submit their operational data, on a monthly basis, to the Performance Review Unit (PRU) and CODA of EUROCONTROL. By publishing punctuality data from this validated source, APN – Europe assures the accuracy of the performance data in the public domain and are not dependent on third party interpretation.
