

ACI EUROPE Digital Communications Forum

Effective communications both internally with employees and partners on the airport site and externally with the wider world is a key priority. With so much information being communicated to a diverse range of audiences, across an ever-increasing array of channels, the Forum aims to allow airports to take stock of these developments, learn from each other and prepare for the next innovation.

Established in 2013, the Digital Communications Forum was created ACI EUROPE to facilitate exchange on the rapidly-evolving discipline of communications, **encompassing digital PR** (including crisis comms), **multimedia formats** (such as live video, animation, podcasts & more) **interactive communications tools** (online, in terminal and mobile), **conversation management tools** such as social networks.

1. Mission statement and work programme

- To promote and exchange best practices in digital communications, in particular in relation to online presence, social networks, digital PR, mobile trends and how these technological developments are transforming our industry.
- To contribute to the work of ACI EUROPE in tracking, analysing and reporting on the adoption of new communications tools and development of new communications practises by airports and their impact on the passenger experience and public perception of airports.
- To present its annual work programme to the Executive Committee of the ACI EUROPE Board in January of each year.
- To contribute to the creation of the programme for some annual ACI EUROPE conferences to which digital communications are relevant.

2. 2016 / 2017 Forum Leadership

The current Chair is Eli Lejeune (Eindhoven Airport)

The Vice-Chair is Corentin Marsac (Groupe ADP)

The main ACI EUROPE representative is Robert O'Meara

3. Membership

As of January 2017, there are over 40 members in the Digital Communications Forum.
