ACI EUROPE is the European region of Airports Council International, the only global association of airport operators. It leads and serves the European airport industry and maintains strong links with other ACI regions throughout the world. Based in Brussels (Belgium), ACI EUROPE represents over 500 airports in 45 European countries. Its members facilitate over 90% of commercial air traffic in Europe: 2 billion passengers, 20 million tonnes of freight and 23.7 million aircraft movements in 2016. These airports contribute to the employment of 12.3 million people, generating €675 billion each year (4.1%) of GDP in Europe.

The organisation's membership is comprised of airport operators of all sizes, along with national airport associations, educational establishments and world business partners in associated industries. Working together in association, ACI EUROPE ensures effective communication and negotiation with legislative, commercial, technical, environmental, passenger and other interests.

ACI EUROPE promotes the exchange of industry know-how through our internal committee structure and extensive schedule of conferences and exhibitions. By actively seeking the views of airport members, it generates comprehensive common policies that serve as a reference to the entire aviation industry. ACI EUROPE works on a day-to-day basis with the institutions of the European Union, the European Civil Aviation Conference (ECAC), the European Agency for the Safety of Air Navigation (EUROCONTROL), the European Aviation Safety Agency (EASA) and the full spectrum of the air transport supply and wider aviation sector.

Colleagues at ACI WORLD pursue the same mission with the International Civil Aviation Organization of the United Nations (ICAO) and other world organisations. ACI EUROPE employs a full time staff of 24 people, under the leadership of Director General Olivier Jankovec. Policy input comes from 6 committees, 4 fora and several working groups, made up of over one thousand experts from member airports and World Business Partners.
